EDUCATION

Bhagalpur College of Engineering

B.Tech in Computer Science and Engineering

2025 – 2029

Bhagalpur, Bihar

- **CGPA: 8.45/10** (1st Semester)

Class XII – CBSE

Senior Secondary Education

2024

- **Percentage: 84%**

Class X – CBSE

Secondary Education

2022

- **Percentage: 91%**

SKILLS

Languages: C, Java, Python, JavaScript

Web Development: HTML, CSS

Tools: Git, GitHub, VS Code

PROJECTS

AI Interview Simulator | Python, Streamlit, Groq API, SQLite

- Developed an AI-powered interview simulator using Python and Streamlit that generates technical questions and evaluates candidate responses using an LLM.
- Implemented automated response evaluation with scores, performance feedback, and weak-topic identification for personalized interview insights.
- Designed a SQLite-based persistence system to store interview sessions, questions, answers, evaluations, and performance scores.
- Built interactive Interview, Dashboard, History, and Settings interfaces to manage interviews and review performance.

Solar Tracking System | Arduino, LDR Sensors, Servo Motor, 3D Printing

- Collaborated with a 4-member team to develop an Arduino-based solar tracking system using LDR sensors to detect sunlight direction and automatically adjust panel orientation.
- Designed and 3D-printed the mechanical base and mounting structure, integrating the sensing, control, and mechanical components into a functional prototype.

Cricket Quiz | HTML, CSS, JavaScript

- Developed an interactive cricket quiz using HTML, CSS, and JavaScript with multiple-choice questions, answer validation, and score calculation.
- Implemented dynamic question handling, DOM manipulation, and event-driven interactions for an engaging and responsive user experience.

Summer Olympics 2028 Countdown | HTML, CSS, JavaScript 🕒

- Built a responsive countdown timer for the Summer Olympics 2028 using HTML, CSS, and JavaScript with real-time days, hours, minutes, and seconds updates.
- Deployed the application using GitHub Pages and maintained the project source code on GitHub.
